

Green Mountain Human Resources Association

Thursday, January 25, 2024
9:00 am to 10:00 am

Bureau of Labor Statistics Resources for Human Resource Professionals

Webinar INFORMATION

Date: Thursday, May 26, 2022
Speakers: Georgia Wright
Place: Zoom
Time: 9:00 am – 10:00 am
Topic: **Bureau of Labor Statistics Resources for Human Resource Professionals**

The U.S. Bureau of Labor Statistics (BLS) produces labor market information that is relevant to HR decision makers. From average salaries to turnover, and from benefits provisions to worker characteristics, BLS provides important information to the public at no charge. In this presentation, you will learn about BLS data relevant to HR professionals and where to find it.

MEETING AGENDA

9:00 – 9:05 am Meet and Greet
9:05 – 10:00 am Presentation

TOPIC INFORMATION

The importance of benchmark information cannot be overstated in today's competitive environment. Please join us as we learn the resources available from the Bureau of Labor Statistics, and how to access and use them. According to an article in Forbes Magazine, "the average Human Resources (HR) team is sitting on a data gold mine." What gives our data context is how we compare ourselves to our respective universes. Be it regional, statewide, national or industry comparisons, knowing how you compare can assist your organizations in maintaining that competitive advantage. In short, data allows us to look before we leap.

Learning Objectives

Attendees will learn:

- BLS resources on employment, occupational wages, benefits provisions, and working conditions.
- How to navigate the BLS website to find the data you need.

Georgia Wright — Bureau of Labor Statistics Resources for Human Resource Professionals

Georgia Wright is an economist at the Bureau of Labor Statistics Northeast Information Office, based in Boston, MA. The Northeast regional office serves New England and New York. Georgia assists the public with obtaining and understanding data on prices and jobs by producing news releases, providing information about BLS products and services, and representing the Bureau at regional conferences. She also conducts presentations informing diverse audiences on how BLS data can assist in decision making. BLS data users include jobseekers and workers, students and educators, financial investors, business leaders, and public policymakers.
